

Therapy at Your School or Program

What to Expect When a Nurturly Kids Therapist Visits

Our goal is to provide therapy in a way that is respectful of your program, your routines, and your team.

What a Visit May Look Like

Depending on the child's needs and the setting, therapy may take place:

- In a designated space
- During play or a familiar activity
- Outdoors or on the playground
- Within the child's natural environment

Before Visits Begin

We'll coordinate with the family and program regarding:

- Therapist availability and possible visit times
- Check-in and visitor procedures
- Appropriate therapy locations
- Program policies and routines
- Other important considerations

During Therapy

Your staff do not need to provide therapy.

Our therapist is responsible for the child's therapy session. When appropriate, we may briefly communicate with staff or observe how the child participates in their everyday environment.

Our Approach

- ♥ Support the child
- 👤 Respect the classroom
- 💬 Communicate clearly
- 😊 Minimize disruption

We appreciate the opportunity to be part of a child's team and will do our best to make visits positive and manageable for everyone.
