

About Nurturly Kids

At Nurturly Kids, we believe every child deserves to feel capable, connected, and supported as they grow. Our mission is to provide thoughtful, individualized care that celebrates each child and helps them reach their full potential every day.

At the heart of Nurturly Kids is our pediatric therapy center in San Mateo, offering occupational, physical, and speech therapy along with small groups, camps, and family support. We use play-based, strengths-focused, and evidence-informed practices to help children build skills for everyday life.

We partner with families, caregivers, schools, and other professionals to support each child's progress beyond therapy. Together, we create consistent, meaningful support that carries into daily routines, relationships, and experiences.

As part of the Bay Area community, we are grateful to work alongside families and professionals who share in each child's journey. Our goal is to be a place where children are known and celebrated, and families feel welcome, supported, and empowered.

What Guides Us

Child-Centered Care

Every child is known, respected, and supported as an individual.

Quality & Purpose

Thoughtful, evidence-based care grounded in each child's daily life.

Family Partnership

Parents and caregivers are valued members of the team.

Play & Connection

Children learn through meaningful play, relationships, & experiences.

Inclusion & Belonging

Every child & family deserves to feel welcomed & valued.

Community

We collaborate, share resources, & give back to help families grow strong together.

Building a Connected Community of Care

We believe children and families are best supported when the people around them are connected, collaborative, and working together.

Nurturly Kids welcomes partnerships with schools, programs, professionals, and community organizations throughout the Bay Area. By sharing expertise and connecting families with trusted resources, we hope to build a strong network of collective care and support.

Interested in partnering with us?
We'd love to connect.

Ready to Connect?

Whether you're looking for therapy, a group or camp, family support, or simply want to learn more about Nurturly Kids, we'd love to hear from you.

Meet Dr. Marilyn

Dr. Marilyn Aviles, OTD, OTR/L

Lead Pediatric Occupational Therapist

A graduate of Samuel Merritt University, Dr. Marilyn has spent more than a decade working with children and families. She brings warmth, patience, and a genuine sense of play to her work, taking time to understand each child and what is meaningful in their everyday life.

Her experience includes sensory processing, self-regulation, motor development, early intervention, and daily living skills. Through a play-based, strengths-focused approach, she helps children build confidence and independence while helping families better understand and support their child's individual needs. Above all, Dr. Marilyn believes in meeting children where they are, celebrating who they are, and creating opportunities for them to play, grow, and shine.

Meet the Founders

Angelia Loi, RN, BSN & Dr. Peter Liu, DPT

Founders of Nurturly Kids • Proud Parents

Before opening Nurturly Kids Pediatric Therapy & Enrichment Center, Peter & Angelia spent four years operating a licensed family childcare home in San Mateo, caring for infants and

toddlers and supporting their families. During those years, they had the opportunity to see therapists work with children in their care which helped shape their vision for Nurturly Kids: a place where therapy, play, development, enrichment, and family support could come together.

Angelia is a Registered Nurse with a degree in Early Childhood Education and a background in art and design. Peter is a Doctor of Physical Therapy with experience in pediatric therapy, home health staffing, and adult and geriatric rehabilitation.

As parents themselves, they hope Nurturly Kids feels like a place where children are known and celebrated, families have people they can turn to, and care extends into the child's everyday world.

Our Services: Pediatric Therapy

We provide evaluations, assessments, individual therapy, and family education & support tailored to each child's individual needs

Occupational Therapy

Helping children participate more confidently and independently in everyday life through support for fine motor and visual-motor skills, sensory processing, self-regulation, self-care, handwriting, motor planning, coordination, play, and everyday routines.

Physical Therapy

Helping children develop the strength, balance, coordination, mobility, and gross motor skills they need to move, explore, play, and participate with greater confidence.

Speech & Language Therapy

Helping children communicate, connect, and participate through support for speech sound development, expressive and receptive language, early communication, social communication, and understanding and using language.

Therapy Where Your Child Needs It

More Ways to Play, Learn & Grow

Small Groups

Supportive, play-based groups give children opportunities to learn alongside one another while practicing skills in a natural social environment.

Groups may focus on social connection, self-regulation, school readiness, communication, and play skills.

Summer Camps

Our camps bring together play, movement, creativity, and connection in a fun and supportive environment where children can build friendships, practice meaningful skills, explore new experiences, and enjoy being kids.

Family Support

Supporting a child also means supporting the people who know and care for them best.

Workshops • Classes • Personalized Consultation

We provide families with practical knowledge, individualized guidance, and strategies that can be carried into everyday life.
